Information regarding the PRISMA quarterly auctions on 6 May 2019

12.04.2019

Dear customer,

Open Grid Europe GmbH (OGE) would herewith like to update you about the changes in the upcoming quarterly auctions on 6 May 2019:

OGE will stop auctioning entry and exit capacities with transportation period as from 01/07/2019 at the IP Wallbach and start auctioning these entry and exit capacities at the newly established VIP Germany-CH (EIC: 21Z000000004960) which will be managed by Fluxys TENP. The capacities auctioned at this VIP with transportation period as from 1 July 2019 will be the capacities of Fluxys TENP and OGE. The first time these capacities will be marketed at the VIP will be the upcoming quarterly auction on PRISMA.

Furthermore, OGE will stop auctioning entry and exit capacities with transportation period as from 01/07/2019 at the IP Eynatten. OGE's capacities with transportation period as from 01/07/2019 will be auctioned at the newly established VIP Belgium-NCG (EIC: 21Z00000000497Z), which will be managed by OGE. The capacities auctioned at this VIP with transportation period as from 1 July 2019 will be the capacities of OGE, Fluxys TENP and Thyssengas. The first time these capacities will be marketed at the VIP will be the upcoming quarterly auction on PRISMA.

The auctioning of entry and exit capacities of OGE at the IP Bocholtz is not affected by these changes.

OGE would like to take this opportunity to remind not yet registered customers who are interested in booking capacities with Fluxys TENP on the VIP Germany-CH in the above-mentioned quarterly auctions to start the registration process on PRISMA for the area of Fluxys TENP as soon as possible. Customers already registered with Fluxys TENP do not need to register once again.

At the same time, OGE would like to recommend all its customers interested in booking capacities at the VIP NCG-Belgium in the above-mentioned quarterly auctions to eventually start the registration process on PRISMA for the area of OGE as soon as possible.

In addition, OGE invites interested customers to execute a communication test for nominations for the VIP Belgium-NCG. We kindly ask you to indicate to OGE a contact person for the communication test in your company by email to disposition-vertrag@open-grid-europe.com.
