

Price Sheet of Open Grid Europe GmbH for entry and exit contracts in the hydrogen network GET H2

Essen, 20 January 2026

The English translation of this information is nonbinding and for convenience only.

This price sheet is part of the General Terms and Conditions for Entry/Exit Contracts Governing the Transportation of Hydrogen in the GET H2 Network of Multiple Network Operators in the currently valid version (GTC).

Valid for hydrogen transports from commissioning of the first part of the GET H2 Network of Open Grid Europe GmbH (expected in Q1 2026)

1. Network tariffs

The Federal Network Agency's Grand Ruling Chamber for Energy has set the network tariff for the hydrogen core network on 14 July 2025 [GBK-24-02-2#4] in accordance with section 28q of the German Energy Industry Act (EnWG) to be applied starting in 2025. This tariff applies to the GET H2 hydrogen network.

Furthermore, reference is made to the document '[Ramp-up tariff for the hydrogen core network](#)' (in addition to the network fee stated in the document, there may be concession fees as well as other levies and taxes). A list of bookable entry and exit points is published separately on the website of Open Grid Europe GmbH.

2. Contractual penalty in case of breach of obligation regarding nominations and flow profile notices behavior

Price for the penalty in accordance with section 6 (9) of the GTC:

$$\text{Price} = (\text{tariff} \div 365) \times 8$$

3. Contractual penalty in case of hourly overruns of included or available capacity

Price for the penalty in accordance with section 20 (4) of the GTC:

$$\text{Price} = (\text{tariff} \div 8760) \times 4$$
