

## VIP France-Germany und VIP Waidhaus NCG

<u>VIP France-Germany</u>	France	NCG
<b>“VIP-TSO”</b>	GRTgaz	GRTgaz Deutschland
<b>Concerned TSOs</b>	GRTgaz	GRTgaz Deutschland, OGE
<b>Relevant IPs</b>	Obergailbach	Medelsheim GRTgaz Deutschland, Medelsheim OGE

<u>VIP Waidhaus NCG</u>	Czech Republic	NCG
<b>“VIP-TSO”</b>	NET4GAS	OGE
<b>Concerned TSOs</b>	NET4GAS	GRTgaz Deutschland, OGE
<b>Relevant IPs</b>	Waidhaus	Waidhaus GRTgaz Deutsch- land, Waidhaus OGE

Due to the uncertainties regarding the VIP-establishment as well as the risks involved, the TSOs were for a long time unable to initiate the adaptations to the core processes and IT-systems required for VIP-implementation. The implementation of VIPs has implications for the whole complex IT-landscape of the TSOs. In particular time-critical, highly-available systems and processes like nomination and grid steering systems are affected. Due to the criticality of these systems and processes a comprehensive quality assurance is imperative.

Therefore, the TSOs will establish the VIP France-Germany and the VIP Waidhaus NCG by 1.3.2019. This implementation date has been coordinated with the adjacent TSOs and the Federal Network Agency (Bundesnetzagentur) has been informed.

Further details regarding the implementation of these VIPs (e.g. the EIC-Codes) are available under the download section.
