

Capacity reservation request form for operators of storage, LNG and production facilities, gas-fired power plants as well as industrial customers

Please return to: Open Grid Europe GmbH, Team "Customer Solutions - Key Account Management", Kallenbergstrasse 5, D-45141 Essen, Germany or scanned as an E-Mail to gastransport@oge.net

Request for the reservation of capacity in the transmission system of Open Grid Europe GmbH in accordance with clause 8 of the determination KARLA Gas 2.0¹ (hereinafter "KARLA 2.0").

Please fill in fields in block letters

1. Company submitting request

_____ Company	_____ Name of contact
_____ Address	_____ Telephone/fax
_____ City, postal code	_____ E-Mail

2. Location of the plant (please enclose a site- and detailed plan)

2.1 Energy plant

_____ Address	_____ City, district, postal code
------------------	--------------------------------------

2.2 Delivery station: location proposed for associated delivery station and planned location of associated exit point or existing exit point

_____ Address	_____ City, district, postal code
------------------	--------------------------------------

_____ Gauß-Krüger-coordinates, X-value, northing	_____ Gauß-Krüger-coordinates, Y-value, easting
---	--

3. Proof according to clause 8 lit. b) KARLA 2.0; facility specification (planned)

Type of plant

<input type="checkbox"/> Storage plant	<input type="checkbox"/> Production plant	<input type="checkbox"/> Industrial customer
<input type="checkbox"/> LNG-plant	<input type="checkbox"/> Power plant	

_____ First gas withdrawal/injection	_____ Commissioning if other date
---	--------------------------------------

Description/presentation of project (please enclose separate appendices)

¹ Decision of the Federal Network Agency (BNetzA) of 12 September 2025 regarding capacity regulations and handling of network access in the gas sector (BK7-24-01-007).

Brief description of plant concept, expansion measures

_____ Appendix

Brief presentation of the current status of approval procedure

_____ Appendix

Description/presentation of project (please enclose separate appendices)

Information about structure of gas withdrawal/injection (temperature-dependent withdrawal/injection behaviour; load hours; minimum/maximum flows, and similar

_____ Appendix

At entry points: Information to the bandwidth of the gas quality (Calorific value, relative density, temperature of the gas, if applicable gas composition of the reference gas) each upper and lower limit

_____ Appendix

Capacity reservation request also filed with other TSO

yes no

The production capacity of the planned power plant will wholly or partly replace the production capacity of an existing gas-fired power plant in the immediate geographic area:

yes no

If yes:

Existing gas fired power station on the network of OGE:

yes no

Identification of the existing gas-fired power plant, webname if applicable

Thermal power input to be substituted by the new power plant (expressed in MW with respect to the upper heating value Ho):

Planned decommissioning date (dd.mm.yyyy):

4. Plant specification and requested scenarios to be checked (please fill in)

Scenario (Amount charged per scenario to be checked: € 3,000 € plus VAT.)	Start Booking period	End Booking period	Entry rate (for injection into OGE-network) [kWh/h]	Exit rate (for withdrawal from OGE-network) [kWh/h]	Required / available pressure (at exit point) [barg]	Type of gas L-Gas	Type of gas H-Gas
No. 1							
No. 2							
No. 3							
No. 4							
No. 5							

By returning the signed form the company submitting its request places an order with Open Grid Europe for having the checks in accordance with clause 8 KARLA 2.0 performed by Open Grid Europe.

The amount payable for each requested scenario to be checked is € **3,000 plus VAT**.

Once the filled-in and signed capacity reservation request form together with all required appendices has been received, we will inform you within two weeks whether additional information is required for processing your reservation request. Once the complete set of information is available, we will send you the invoice for the check(s) requested.

If you request the further examination or do not withdraw your request within 2 weeks (reservation declaration), we will proceed with the examination for the reservation of capacities in the network of Open Grid Europe GmbH in accordance with clause 8 KARLA 2.0. From that point onwards, the 3-year period according to clause 8 lit. c) sentence 4 KARLA 2.0 begins. We will inform you of the result of this examination immediately, but not later than two months after the expiry of this two-week period.

Upon positive examination result, the reservation fee is payable. The reservation becomes effective only upon receipt of payment by OGE. If no payment is received, the reservation expires (Sec. 38 Number 6 and 9 Cooperation Agreement).

If, within the original reservation period, it becomes apparent that there will be project delays and a binding capacity booking cannot therefore be made within three years, the reservation period can effectively be extended by making a new reservation. For such an extension in accordance with clause 8 in conjunction with margin number 142 sentences 7 and 8 of KARLA 2.0, the reservation requirements in accordance with clause 8 KARLA 2.0 must be reviewed again, and a further reservation fee must be paid for the new three-year reservation period.

Place, date

Signature of company submitting request / company stamp

Data protection notice

If you contact OGE using the contact form, the personal data you provide will be processed for the purpose of processing your request and contacting you. The legal basis for processing is Article 6(1)(c) of the General Data Protection Regulation in conjunction with clause 8 KARLA 2.0. The retention or deletion period is 10 years, unless an expiry of the purpose of retention is determined in an annual review by us.

You have the right to information, correction, deletion or restriction and portability of your personal data. You also have the right to object to the processing of your personal data.
